No Further Proceedings to be Taken in the Virginius Matter.

NEW YORK, Dec. 31.—The United States District Attorney says that no further proceedings will be taken in the case of the Virginius. It is not likely that the vessel will ever be raised, and it is deemed requisite that the vessel should be produced before she could be libelled. The Government officers say that whatever may have been the relation of Mr. Patterson to the Virginius at the time of her register there is abundance of proof that she was not its owner at he time of her capture.

FROM THE METROPOLIS. The Engineers of the New York Dis

vision of the Pennsylvania Railpros Accept the Situation—Conviction of Senator Graham—No News NEW YORK, Dec. 31 .- The en-

gineers of the Eastern Division of the Pennsylvania Railroad have been in session in Jersey City for the past three hours to finally decide whether to strike to-morrow. The officers of the company are apprehensive of trouble. The engineers, pilots and other ferry hands of the company reported this morning that they accede to the reduction of 10 per cent. on their salaries.

LATER.—At 2 o'clock a committee from the Engineers waited on the Assistant Superintendent in Jersey City, and had a conference with him. They reported that the en-gineers of the New York Division of the Pennsylvania Railroad, numbering 136, decided to accept the proposed reduction, and would not strike, but would present a remonstrance to President Thompson, asking that when business improved their pay should be raised to the

former amount. No satisfactory replies have been received in answer to the telegrams and letters to the Havana agent of the New York Associated Press, inquiring as to the whereabouts of Ralph Keeler.

Ex-Senator Graham has been found guilty of embezzlement and remanded for sentence.

Too BAD FOR OXFORD.—Among the items from Oxford, as published in the *News* of Tuesday, is an account of the freak practiced by a so-called Irishman named Mathews. This fellow found his way into that backward burg of late, and played some fancy pranks on secular citizens, as well as on gentlemen of the cloth.

The News correspondent states that Mathews "was very denuncia-tory of Raleigh," and thinks "he must lately have been living there." True enough, the chap put in a few days at the Capital, but, notwithstanding his smartness, he did not succeed in fleecing our clergy and citizens as effectually as he did the Reverend and other residents

of Oxford. It is stated that he played the thodist at the reside nce of Rev. Mr. Mangum, of this city, and obtained a job of dyeing or scouring for that gentleman. With Father McNamara he declared himself a staunch adherent of the Catholic faith, and right there Mr. Mathews got admonished in a style that caused him to fly hastily beyond the precincts of our city. Father McNamara gave him clothes to clean, but being somewhat suspicious of Mathews' respectability, the Priest watched his movements rather closely, and refused to allow the fellow to remove the clothing from the premises, though Mathews wished to take them to his lodgings "for the better performance of the work." Before finishing the job he requested his pay, and received a portion. Circumstances increased Father McNamara's suspicions regarding Mathews' character, and he set out in earnest to discover the truth, and succeeded in finding out that he was a disreputable rascal. The next time we heard of Mathews, was through our Oxford correspond-

MEETING OF THE CITY COMMIS-SIONERS.—A regular meeting of the Board of City Commissioners took place last night at the Mayor's office. Present-His Honor, Mayor Whitaker, presiding; Commissioners, White, Clawson, Johnston, Prairie and Hicks.

On motion of Mr. White, the resignation of Mr. Clawson as a member of the Board, offered at the last regular meeting, was withdrawn.
Mr. Clawson, as Chairman of the

Committees on the old Cemetery, and the rental of the front basement of the market house, asked further time to report, which was granted. The Committee appointed to report on the indebtedness of the city, was

granted further time. A petition was received from certain citizens of Eastern Ward, asking that a gas lamp be placed on the corner of Person and Lane streets. Also a petition from citizens of Western Ward asking that a lamp post be placed in the neighborhood of Hays' Church, at the Lenoir street railroad crossing. The petitions were granted, provided the gas company extend pipes to the point indicated without

expense to the city.
Gaston Johnson, W. D. Upchurch, J. J. Johnson & Co., J. L. Overby, Jack Batchelor, A. Sorrell, N. A. Blake and A. M. Nelson were granted license to retail spirituous liquors

in the city.

The auditing committee refused to passupon a large number of accounts, when they were read by the Clerk, and discussed separately.

Pending the passage of the same, the Reporter adjourned.

ANOTHER CHRISTMAS TREE.-Last

evening the children of the Episco-

pal Sunday School had a beautiful Christmas Tree in their school room. The room was tastefully decorated with wreathes and crosses of evergreen and mottoes appropriate to the happy season, and the tree, laden with presents for the scholars and glittering with the light of wax tapers, was a sight pretty enough to call forth exclamations of pleasure from the old as well as the young. The children formed a procession in the church and marched to the school room singing in excellent time and voice a charming carol suited to the occasion. On arriving in the room the children again sang very sweetly, after which the feature of the evening took place—the distribution of the gifts. What merry shouts went up as some little one received a present that exactly chimed in with his or her childish fancy. The scene

COUNTY MATTERS .- During the month of December, forty-five marriage licenses were issued by the Register of Deeds, of which eighteen were white, and twenty-seven colored.

There were ninety-five deeds, mortgages and lien bonds registered during the month of December.

The Board of County Commissioners will meet at Parish Grove (Poor House) to-morrow, as wardens of the poor; at the County Work House on Friday, and the regular general business meeting will be held in the Commissioner's office in the Court House on Saturday.

There are nine convicts in the

county work house, of which two are white, and one female, colored. There are thirty-four persons, white and colored, in the poor house. There are twenty-three persons in the county jail, four of the above number, three males, and one female,

are white, the rest colored males. Nineteen of the above prisoners are awaiting trial. Six are charged with murder, and one with burglary. 'I'wo are United States prisoners, and two are convicted of murder, having been sent from Johnston county to this jail for safe keeping.

REVENUE MATTERS.-Notwithstanding the unusual tight times in this, the 4th Collection District, the receipts from all sources at the Internal Revenue office for the month of December amounted to \$36,563.38. For the year 1873, closing last night the Internal Revenue receipts for this Collection District reached the huge

amount of \$443,706.30. Col. I. J. Young, the Collector on Christmas day, seized, near Henderson, a wagon and pair of mules belonging to Jno. R. Maynard. The wagon contained nineteen boxes of

manufactured tobacco, two of which were without stamps or brands.
We observed in the Collector's office yesterday considerable activity, not only with the clerks in closing up their books for the month and year, but preparations being inaugurated for a campaign on the tobacco manu-facturies and distilleries in the District. The Collector is of the opinion, and has reason to believe, that gross irregularities are being practiced by manufacturers and distillers in some localities, and he is determined to 'go for 'em." So, look out! ye men in the bushes and up the spring branch in the hollow.

THE POOR OF RALEIGH.-We believe that Raleigh is far ahead of any city in the Southern States this win ter, in providing for the poor and needy. Reports from Montgomery, Atlanta, Savannah, Mobile and other Southern cities of the condition of the poor, are really distressing to read. It is said that actual starvation exists, and numbers are dying from cold and exposure in several of the cities named. We have made diligent enquiry in regard to the poor of Raleigh since the recent cold snap, and we are more than gratified to state that the various Relief Societies of the city are not only at work, but fully prepared for any emergency. The President of the Young Men's Christian Association informs us that the citizens have contributed more liberally this winter than ever before to the fund of the Association, and the same can be said for the other Societies. There is no part of the city that is not visited by these Societies and the poor and destitute are hunted up and provided for. All honor to the Christian people of Raleigh, who have taken so much interest in this good work.

Moving In.—We are gratified to chronicle the fact that with the beginning of the new year, several families are moving in our city to make Raleigh a permanent home. Captain A. B. Andrews, Superintendent of the Raleigh & Gaston railroad, has moved in his new and handsome residence on Blount street. Captain J. B. Timberlake, having purchased residence on Halifax street, will move in with his family at an early day. Mr. G. Rosenthall, Superintendent of the Neuse River Mamufacturing Company, has secured a residence on Newbern street, and will move in a few days. John A. Waddill, Esq., of the large firm of builders and contractors, Messrs. Wilson & Waddill, of Wilson's Mills, will commence the erection of a handsome residence on Fayetteville street at an early day. We hear of many others coming, and all of the enterprising business class of people that will prove the most valuable accessions that could be made to our population. Let them come! We have room enough and business for all that come for busi-

BATTLE'S REVISAL.-J. B. Neathery, Esq., of this city, has been appointed agent to sell Battle's Revisal of the Public Statutes of North Carolina, and we learn he is now prepared to receive orders for the same. Revisal is in one volume, and embraces all the public and general Statute Laws now in force and use in the State, including the Code of Civil Procedure, and it is to be received as evidence of what the law is in all the courts of the State. It is invaluable to members of the legal profession.

1, 1874, county officers will not be

supplied before that date. HAPPY NEW YEAR.-As to-day inaugurates the new year of 1874, we greet our readers with the usual compliment of the season--a happy new year. We hope the joys of the old year, unalloyed with any of its sorrows, may be repeated to all in the new. If our good wishes be awkwardly expressed, they are none the less sincere, and what they lack in polish, must be atoned for by heartiness. Laboring under a poverty of both language and ideas, and not willing to tread the well-beaten paths of a century, from the sides of which all the blossoms of originality have

long since been plucked, we are forced

NEW YEAR'S CALLS.-As there were some who misunderstood the notice published a day or two since, we are asked to repeat it. Calling will be general, and as time is of great importance to those who have ninety calls to make, all families, who from any cause are not ready to receive, will please have some receptacle for cards at the door. This refers only to those who are not ready to receive; of course no other preparation is necessary unless persons de-

HARD ON THE NEW YEAR'S CALL-ERS.—We learn that many families that expect to be visited to-day by New Year's callers, have determined to set out tea and coffee as a substitute for wines and suthin' warmer. This is a capital idea—a move in the right direction, but we fear the announcement of this fact will cause many of the "bloods" to wear over-coats with large side pockets on their rounds.

SERENADE .- The thanks of the News office are due to the Mauro Italian String Band for a delightful serenade last evening. They make exquisite music and should be patronized whenever there is occasion fo their professional services.

THE official valuation of property in the United States, according to the census of 1870, is \$30,000,000,000. It has been estimated since the census was taken that our national debt, the debts of States, cities, counties and towns, the debts of individuals, and the amount of railroad bond and mortgage indebtedness amounts in the aggregate to about \$12,000,000,-000, the interest upon which at 7 per cent. is \$840,000,000, or 3 per cent. of the official valuation of the total amount of property. These facts will furnish Congress with nuts to crack for some time, as they must be stared in the face, and what is worse, some relief must be afforded the country.

The New Minister to Spain. Notwithstanding the surprising facility with which Mr. CALEBCUSHing has shifted his political coat within the past twenty-five or thirty years, his appointment to succeed the disreputable SICKLES at the Court of the Escurial gives great satisfaction to the country. For the nonce GRANT is complimented on all sides for his selection. But GRANT does not deserve credit for the bare fact of an improvement on SICKLIS, for he would have been sadly puzzled to have picked up a worse man, while most any one outside of the walls of

a prison would have done better. Mr. Cushing has long been prominent in public life. He has been frequently in the Massachusetts Legislature; has served eight years in Congress; was Minister to China in 1843; was a Brigadier General in the Mexican war; was Minister to Columbia in 1868; was Attorney General under the Administration of President PIERCE, and assisted to draw up the "case" of the United States against Great Britain in the matter of the Alabama claims. Whatever may be said in regard to Mr. CUSHING'S political inconsistencies, his ability and fitness for the position to which he has been appointed is

To Our Subscribers.

As the year 1873 is about closing. we would earnestly request the subscribers of the DAILY and WEEKLY News to at once renew their subscriptions, in order that we may be enabled to commence the new year with lighter hearts and heavier purses, and thereby be the better prepared to make the News the popular journal which it has ever been our desire it should be. Let every one whose time of subscription expires with the first of January, or who may be indebted to us at the present time, remember us on New Year's Day. and we shall endeavor to make the News in 1874 more readable than ever before.

PETITIONS are circulating in portions of Virginia for signatures, asking the Legislature to submit to the 000, and an exchange says he made people certain amendments to the State Constitution. The proposed amendments are as follows:

1. To reduce the number of members of the House of Delegates to seventy-five, and the number of Senators to twenty-five.

2. To provide for the meeting of the Legislature biennially instead of annually, and making the pay of members at a fixed salary of \$500 per session, instead of a per diem salary of

3. To make attorneys for the Commonwealth ineligible to seats in the Legislature while holding the office of attorney.

4. To equalize, and reduce as far as possible, the rate of taxation upon the real estate of the Commonwealth.

"A Happy New Year to All." To-day we enter upon another round of that eternal march of years which has served to mark the occurrence of events as well as to date the age of the earth itself. We cannot know, if we would, what the next three hundred and sixty-five days may have in store for us-the veil of the future cannot be removed by human hand, and we can only hope that eighteen hundred and seventyfour shall be fraught with much happiness and prosperity to our readers.

We enter upon our duties editorial for the new year with the hope that we may be enabled to make the columns of the News more acceptable to our friends and the public, pledging our best exertions to this end, and trusting that our shortcomings may be overlooked. Again we say, "A happy New Year to all!"

Our telegrams of yesterday have informed our readers of the sinking of this ship off the coast of this State, near Frying Pan Shoals. When the ship settled and went down, we opine that all complicais favorably received at Madrid. The | tions as to restoration to the Spanish Spaniards are loud in expressions of Government or ownership were forever settled. We do not regret the occurrence as the vessel, as long as it held together, would be a monument which would serve to recall to mind the inhuman and cold-blooded butchery at Santiago de Cuba, besides it saves a large amount of litigation in which more money would probably be spent than the worth of the ship. We would subjoin a short sketch of the eventful history of this ship, but so much has beeen written of her in the past few months we take it for granted that our readers are too familiar with the subject to make it an interesting theme.

> Cannon to Become Implements of Agriculture.

A Chicago Professor is engaged in endeavoring to demonstrate the practicability of controlling and distributing rainfall by means of concussions produced by the firing of artillery. His theory is deduced from an examination of one hundred and thirty battles which were succeeded by copious rains. About sixty per cent. of all battles or bombardments of importance are followed by rain within the first twenty-four hours from the commencement of the heavy firing, and about ninety per cent. within the first forty-eight hours, the average length of time being twenty-six and a half hours. These rains follow battles not only in the Spring and Summer, but also in Autumn and Winter, and not only in this country and in Europe, but in the dry season in Mexico. The theory of this phenomenon is explained at great length by the Pro-

The establishment of this theory, and the converting the cannon into an implement of agriculture instead of remaining destroyers of life, is something that might be devoutly wished for.

The Legislature.

The Wilmington Journal of Thursday, thus speaks of the present State Legislature:

"The Legislature, during the few weeks it was in session previous to the holiday recess, worked with great assiduity, an I much important legislation was perfected. Upon its reas-sembling, on the 12th of January, very little will remain to be done of ordinary legislation, if we except the Revenue Bill, and the question of the State debt will engross the principal attention of that body. Already this subject has been carefully considered, both in committee and in open session, and there are pending propositions which look to the adjustment of the debt, acceptable to the creditors of the State on the one hand, and her

tax-payers on the other. Our legislators have acted wisely in ignoring altogether the "Special Tax Bonds." The Journal has been out-spoken in denouncing them as invalid in law and there were neither moral nor legal obligations on our part to pay them. This we have endeayored to show in elaborate articles, which have been received, in and our of the State, with much favor. To

prompt and decided action on the part of the General Assembly in re-

gard to them. We suppose that the Legislature will be able to complete its labors by the first of February, making it the shortest, as it will doubtless be the most important, session since the war. With its close, under the amended Constitution, the General Assembly will meet in November, 1874, and not again, unless called to-gether by the Governor. Its successor will assemble in November, 1876. It will be seen that this amendment will save the State many thousands of dollars, as the sessions of the Legislature, held every other year, will not be longer than when held annu-

We are satisfied that the present Legislature has so commended itself to the people of the State that its successor will be more decidedly Conthroughout her borders. God speed the day!

Another Spanish Outrage. It seems that the Spanish in Cuba have added one more outrage to the already long list. Mr. RALPH KEE-LER, an American citizen and correspondent of the New York Tribune, has been murdered, and the Herald, in alluding to the matter editorially, has the following to say:

"From the information brought by our special correspondent, who arrived with the Juniata, it is almost certain that Mr. Ralph Keeler, correspondent of the New York *Tribune*, has been murdered while on his way from Santiago de Cuba to Manzanillo. Consul, with the intention of taking passage to Havana. A son of Capt Baine saw him on the Spanish steamer and saluted him as he passed the Juniata. When the Spanish steamer arrived at Manzanillo, Mr. Keeler was missing and his luggage was de-livered over to the Consul. In all probability the mystery of his disappearance will remain unexplained, though there can be little doubt about the manner of his taking off. The matter is one which needs explanation and clearing up, and we hope the Washington authorities will insist on a most searching investigation being instituted. There is a list of passengers kept on all steamboats which ply on the south coast of Cuba, and if the authorities in Havana desire to throw light on Mr. Keeler's fate it will be easy to do so. At present the appearances point to foul play."

Says the Charlotte Observer of the 30th inst.,: "We have reliable information that there is in the city, a little white orphan girl, twelve or thirteen years of age, who is living in the family of a negro, having no home and no where else to go. The negro has or will make an attempt to have the child bound to him."

About 11 o'clock on Sunday night, says the Charlotte Observer of the 30th inst., five negro men were brought to Charlotte and lodged in The charge against them was that of murdering a colored man, whose name has not yet transpired, near Davidson College, on Sunday afternoon. Information concerning the affair is exceedingly meagre, and about all that is known is that some one of the five men killed the one we have spoken of in a general row. The abdomen of the murdered man was cut open and his entrails ripped out. The unfortunate man had not died up to the time the men were arrested and brought to town, but it was reported by passengers on the Statesville train yesterday morning that he died about midnight. The names of those charged with the murder are: Bill Smith, Geo. Springs, Albert Johnston, Elias Johnston and Green Smith.

The Railroad Strikers-The Origin of the Whole Difficulty.

The Wheeling (W. Va.) Register, of last Saturday, gives the following solution of the beginning of the great strike now in progress on many of the Northern railroads. Says the

The company of which Colonel Thos. Scott is Vice-President, known as the Pennsylvania Railway Company, hold as leased lines the Pittsburg, Fort Wayne and Chicago, the Pan Handle, the Cleveland and Pittsburg, and several other important lines of railway. It is well known that this company has been wading in deep water, financially, for some time; that its dividends have been in deep water, financially, for some time; that its dividends have been paid in scrip, and that many of its imployees have not been paid, even in this cheap commodity. It becoming pretty well understood that the men would be tendered scrip in payment of their last two months' wages and that a reduction in salaries would probably be made at the commence-ment of the new year, the engineers and firemen on all the trains, freight and passenger, stepped from their engines yesterday, about noon, leaving the company without a man in either capacity on any of its lines. These men belong to a secret associa tion, and had perfected their arrange ments for the strike, so that it eook effect throughout the length of these great railroad lines simultaneously. It is a severe shock to the business of this already crippled and toppling corporation, which has heretofore dietated the carrying trade of the country and the railroad legislation of many of the States-a company supposed to be almost omnipotent in influence, and known to be collossal in corruption. And it will be a great inconvenience to the shipping and traveling public, for a few days at least. Of course other men will be found to take the places of the strikers, and the trains will all be running again with their accustomed regularity. In the meantime, the great rival of the Pennsylvania Company, the Baltimore and Ohio Road, will reap a rich harvest."

COFFEE OR NO COFFEE. - It is stated that coffee, in lieu of spirituous liquors and wines, will be dispensed at all the official tables in Washington on New Year's Day-except at the British Legation, where, in respect to the brave British troops now fighting the King of Ashantee, coffee will not be dispensed, but dispensed with.

THE AWFUL FATE OF SIR JOHN FRANKLIN'S PARTY.-It is well known that in his great sledge journey in search of the relics of Sir John Franklin, Captain Hall made distressing discoveries, which he resolved never to give to the light as long as Lady Franklin should live. THE OBJECT OF THE VIRGINIUS EXPEDITION.—The Paris Gaulois publishes a letter from one of the Virginius prisoners, in which the following passage appears:

"The Virginius expedition was organized at Kingston, by a leader of the Cuban insurgents named Quesada. It had a twofold object: to give the greatest possible proportions to the war in Cuba, and to give General Grant, by reason of the growth of the insurrection, an excuse for proposing to Congress on its assembling, he recognition of the insurgents as belligerents."

MERICAN STAR

Leather Preservative COMPANY. The attention of the to the American Star Leather Cleaner AND Dresser for Boots, Shoes, Harness and everything in the way of Lather exposed everything in the way of L ather exposed to mud, water or otherwise. It is easily applied, saves time and labor, and is from 25 to 50 per cent. ch-aper than any other preparation now in use. It renders the Leather soft, pliable, water-proof and refreshed. One application cleans, oils, blackens and lifts off all foreign matter; then the prepayation sinks in, giving it a neat, leatherfinish. The first premium was awarded it at the American Institute Fair, New York, 1873, also at the Maryland Institute Fair, Battimore, 1873.
